Since our beginning in 1988, we have remained committed to quality learning through excellence in instruction, with some of the most gifted and renowned spiritual teachers from around the world. Our speakers and instructors embody a depth of knowledge and wisdom, providing our students with fertile ground for profound transformation of their everyday lives.

Whether individuals come to us because they are curious and wish to expand their vision of life, to learn new skills, for inspiration, healing, or for deep spiritual knowledge, we continually create...A place your soul can call home.

Fellowships of the Spirit is a Spiritualist church incorporated in New York State. Our Fellowships currently meet in 20 states, Canada and England.

"Not only did I learn about mediumship and healing, I grew as a person. While you are learning to be of service to others you also begin to uncover who you really are and the things you are meant for in this life. After graduating from Fellowships School what I was meant to do in my life was clear, and most importantly I have been living my bliss and finally at peace with myself".

– Angela Abt. BS

"The School of Spiritual Healing & Prophecy provides excellent training experiences within a professional framework of theory and ethics, wrapped in love and service."

– Ellen Reesling, Ph.D.

“Though I’ve studied many other places, with many teachers, Fellowships of the Spirit’s Spiritual Insight Training gave me exactly the tools I needed to “connect the dots”, bringing form and format to what I’d always known, but couldn’t define, articulate. It was without a doubt the single most important stop on my spiritual journey. Though nearly 20 years have passed, I still find myself coming back over and over again. For me, it truly IS the place my soul calls home.”

– Martie Hughes, Registered Medium
Lily Dale, NY

“Spiritual Insight Training I was a profound experience for me. After several years of having little success doing mediumship, I gave my first verifiable message on Saturday. The methods used to teach were extremely effective and so quick, it both surprised and thrilled me.”

– Anita Pizycki

“If you believe, as I used to believe, that communication with spirit is only available to a few exceptionally gifted and unusual people, think again. Fellowships of the Spirit believes it is the birthright of every human being to be able to experience this – and Fellowships can get you there. The Spiritual Insight Trainings opened my eyes, and my experience - and changed my life.”

– Malcolm Cobley, Milton,
Ontario, Canada

“During Part 2 of Spiritual Insight Training, the encouragement and support of the instructors and mentors created an atmosphere where I felt safe to explore and discover. The deeper meditations, expanded use of healing energy, and personal experience of giving messages combined to create growth and new understanding for me.”

– Mary Czapar

“If you had to choose to take one class, then Spiritual Insight Training is a must. Taking this class gave me a new clarity. While it may not be everyone’s path to be a medium, going through life without access to one’s intuition is like driving through life with a blindfold on. As you continue to do inner work and unlock the spiritual gifts that in fact all of us have by divine right, we go from driving blind to driving with a navigation system. It is a night and day difference.”

– William Setala, BS

“No matter how many events I’ve had the pleasure to attend at Fellowships of the Spirit, I always know a few things are guaranteed to happen: There will be several wonderful sparks of insight - powerful “light bulb” moments – in which I recognize and tap into gifts and abilities that I’ve always felt were inside, providing me with the keys to unlocking that “inner knowing.”

– Bill Sklodowski

"Every experience that we have contains purpose and meaning. Each event, each person in our lives embodies an energetic fragment of our own psyche and soul."

— *Caroline Myss*

If you would like to better understand this statement, especially as it relates to your life, this is the workshop for you! Incorporating Caroline Myss' teachings on universal energies, the chakras, archetypes and Sacred Contracts, it offers valuable insights on life, relationships, challenges, and victories.

IN THIS WORKSHOP YOU WILL LEARN:

- How to uncover the energies of your unconscious mind, your beliefs, your experiences and perspectives that shape your reactions to everyday events
- How energies interact, especially as they relate to your own life
- How to see your life symbolically rather than literally, a view that is healing and empowering
- You'll get a better understanding of your own Sacred Contract - why you're here, what you're here to contribute to the world
- You'll leave with tools you can use to provide different perspectives on your life's many challenges

This is a workshop that's fun, insightful, healing. At the core of this workshop are the teachings of Caroline Myss, specifically Sacred Contracts: Awakening Your Divine Potential, Anatomy of the Spirit, and Why

People Don't Heal and How They Can, as well as the work of others. **NOTE:** *You will need a set of Caroline Myss' Archetype Cards which can be purchased at the workshop. Bring your copy of Sacred Contracts, if you have one. And, of course, an open mind.*

Guided to the work of Caroline Myss, **Martie Hughes** attended a 10-day workshop in 1998 and was immediately aware of its enormous potential for deep, lasting healing. In 2004 she completed a 2-year advanced training in Sacred Contracts at CMED, the Caroline Myss Educational Institute, receiving the designation Certified Archetypal Consultant. Martie is a multi-dimensional seer: a medium, an intuitive healer, a spiritual coach. She is a Registered Medium in Lily Dale, her year-round home. www.spiritualintuitive.com

- Increase your lung capacity, oxygenation, and cardio-respiratory health

Many people who have worked with him say they have been transformed and that they never would have imagined that something so simple would have been so powerful and helpful.

These benefits have been enjoyed by health care practitioners, Buddhist monks and nuns, teachers of yoga and other mind-body practices, military veterans, individuals with psychiatric (eg. anxiety, depression, PTSD, ADD) and medical conditions (eg. cancer, Lyme disease, lung problems, toxic exposures), victims of terrorism, war and natural disasters. We will be sharing new material on the science of breath and its use in trauma relief.

*** For those who have taken this class before,** we have added more advanced practices including modifications of breath moving, breath rhythms, and open focus meditation.

Richard P. Brown, MD, Associate Professor in Clinical Psychiatry at Columbia University College of Physicians and Surgeons, teaches advanced breath techniques with movement and meditation to help stressed and traumatized people improve energy, sleep quality, stress resilience, and peace of mind. His work is a unique fusion of ancient and modern mind-body techniques derived from QiGong, yoga, Christian monks, Coherent Breathing, Open Focus meditation, and martial arts.

Patricia Gerbarg, MD, Assistant Professor in Clinical Psychiatry at New York Medical College, facilitates research projects, lectures, and writes about the effects of breath techniques on psychological health and post-traumatic stress. She assists Dr. Brown in workshops and is the co-author of numerous scientific articles and books. Friday - Sunday,
9 am - 5 pm each day

TUITION

Early Registration:
\$365 until 6/1/12
Late Registration:
\$395 after 6/1/12

Join Caroline Sutherland, best-selling Hay House author and one of today's most sought-after medical intuitives for this intensive three-day training. Enhance your own intuitive process and learn to trust your instincts while exploring one of the most exciting areas in alternative medicine.

This medical intuitive training is designed to teach the participant to see beyond the veiled layers of the body and to understand its mysteries. Open to everyone who is interested in developing their intuition - practitioners and lay people alike, and designed to familiarize you with some of the ways that intuition comes to us and to personalize these instincts to better assist ourselves and others.

Description of the phenomenon of medical and physical body intuition:

Medical intuition is a potent form of inner wisdom that is our birthright. Intuition comes to us as an inner knowing – a revelation, a gut hunch, a physical feeling, a sensation or realization. Intuition is not dependent on the rational mind. Medical Intuition is not just the domain of a few gifted people. Everyone has the ability to see the body with “new eyes” and to “feel” instinctively, what may be out of balance on the physical, emotional and spiritual level.

OBJECTIVES:

We will...

- Discuss the nature of intuition from a physical, emotional and spiritual perspective
- Define the importance of intuition in a clinical setting
- Describe 3 elements of the intuitive process
- List 4 ways intuition can be used in a client/patient evaluation
- Express the benefits of integrating medical intuition in CAM

During this exciting training Caroline will teach you to:

- Hone your instincts and access intuitive impressions
- “Tune in” to body parts and processes
- “Read” imbalanced systems

- Recognize visual signs of imbalance
- Understand the 7 key problem areas
- “Tune in” to children and the elderly
- Assess food allergies and sensitivities
- Identify environmental factors
- Understand hormone balancing
- Master simple methods of self-testing
- Understand the emotional and spiritual components of illness
- Stay out of the “cancer zone”
- Understand and redirect the “subconscious death process”
- Use photographs to identify and correct imbalances, and much more

Please give special attention to the following:

* Prerequisite reading: “*The Body Knows*” – how to tune in to your body and improve your health (Hay House), or *The Body Knows How to Stay Young* (Hay House)

Caroline’s Individual Readings for students will be conducted on Thursday evening after 6 pm. In the event that you cannot arrive Thursday evening, a limited number will be done early Friday before the class. Make your appointment with the Fellowship office: 716-595-2159, or fots@netsync.net

Please bring: 3 individual photographs of friends or family members to work with during the training. Caroline will teach you how to tune in by using these photographs. *Note: Caroline will demonstrate her medical intuitive skills with workshop participants.*

TRAINING TUITION INCLUDES:

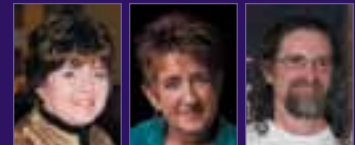

Caroline’s instruction, an individual medical intuition reading with Caroline and Training Manual worth \$25.00.

The following CEU contact hours are available:

- LMT CEU’s** - 23.5 contact hours
- RN CEU’s** - 23.5 contact hours

Caroline Sutherland, the author of the best-selling “*The Body Knows*” books, has a vast clinical background as an allergy-testing technician in environmental medicine, which is where her intuitive gift developed. Caroline’s father and grandfather were both medical doctors. As a child, the “blueprint” of her family lineage created important seeds for her future career as a medical intuitive. For more than 25 years, she has lectured internationally, and her intuitive impressions have positively impacted the lives of over 100,000 people. Caroline is the founder of Sutherland Communications Inc., which offers medical intuitive trainings, weight loss programs and consultation services for adults and children. She is a frequent guest on radio and television and is a popular presenter at the *Hay House, I Can Do It!* conferences. www.carolinesutherland.com

9 am - 5 pm

TUITION

Early Registration:

\$95 until 6/22/12

Late Registration:

\$125 after 6/22/12

The world and consciousness is changing. Everywhere we look, old unsound structures are cracking and crumbling. We see this in people’s lives and on the larger world stage. This is a call for change, for growth and perhaps for healing. We have the choice to open ourselves, to work with these times of change and be in the flow or resist and live in turmoil.

Divine guidance is available to each of us. It comes in many forms. We have opportunities everyday to open to this guidance or not. To the degree that we do this, the mountains become hills and the hills level out. We can move forward with knowledge and the possibilities to live a better life with guidance from above and within us.

YOU WILL LEARN:

- How to link in and recognize guidance from your Teachers in Spirit
- Have confidence to give what you are receiving and accept what you know intuitively and from spirit loved ones and guides
- How to recognize the new influences of additional spiritual beings, who are working with you as you continue to grow
- How to recognize and deal with changes that were once hidden and now out in the open...where we wouldn’t have done it before
- How to be in the flow for yourself and with others and bring balance and harmony to your life in these turbulent times
- Be comfortable with, accepting and utilizing God’s energy and guidance from Spirit in our lives on a daily basis

This workshop will be highly experiential, with personal coaching from Greg during the exercises.

Rev. Gregory Kehn is a fourth generation Spiritualist Medium. He first began to give messages at Inspiration Stump at the age of 8. In his early years and as a teenager he learned many techniques from his grandmother, Cherokee Native American and his mother who were mediums. Greg was also a student of the internationally known trance medium Dana Bailey. Greg has spent the last 34 summers in Lily Dale

as a Registered Medium and also resides in Estero, Florida, where he does readings and teaches mediumship. He has been a guest on TV and radio for the past 30 years. Greg’s website is: www.gregkehrn.com or contact him via e-mail at gregkehrn@earthlink.net.

Astrology and Reincarnation: Finding the Chart Behind the Chart with Steven Forrest

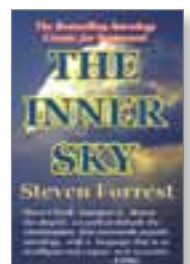

DATES

July 13 - 15
Friday evening: 7 - 10 pm
Saturday: 9 am - 6 pm
Sunday: 9 am - 5 pm

TUITION

Early Registration:
\$365 until 6/29/12
Late Registration:
\$395 after 6/29/12

O: THE OPRAH MAGAZINE describes Steven’s philosophy this way: “Forrest’s approach...stops the blame game in its tracks...we’re warriors fulfilling our turbulent evolutionary paths.”

Robert Downey Jr. says, "I marvel at the accuracy of Steve's readings. He insists that nothing is so grave as to be beyond repair, and correspondingly that there is no rainbow that won't be evaporated by poor judgement in the now. So I guess "benevolent realist" would best describe his approach...I can't recommend him highly enough."

Sting calls Steven's work "as intelligent and cogent as it is poetic."

Whether or not we believe in reincarnation, one point is sure: no one comes into the world as a blank slate. Every baby is born with a nature – and children born into the same families often turn out very differently. Understood in the light of the idea of reincarnation, these phenomena begin to make sense. But how can we understand them astrologically? Until recently, even among metaphysical astrologers, the answer hasn't gone very far beyond vague references to the south lunar node. Over the past decade or so, under the banner of Evolutionary Astrology, a set of very specific techniques have emerged for sorting the past life story out of the present birth chart. These methodologies do involve the Moon's south node, but also its ruler and the planetary aspects it makes, ultimately re framing the entire chart as the result of prior-life dynamics – and meaningful present-life evolutionary intentions.

What about the charge that an astrologer could "say anything" about an alleged past life and no one could prove him or her wrong? Fair enough – but the proof of the pudding is the way the "karmic" pattern tends to repeat itself in the present lifetime where it can be observed directly, and hopefully, broken. This workshop is based on Steven's book *Yesterday's Sky*, published in 2008. In this weekend seminar, we'll go further, use more examples, and introduce new techniques.

Steven Forrest has been practicing astrology professionally since 1978. He is the author of several astrological best sellers, including *The Inner Sky*, *The Changing Sky*, *The Book Of Pluto*, *The Night*

Speaks, Measuring The Night (with Jeffrey Wolf Green), *Skymates, Volumes One and Two* (with Jodie Forrest), and the mystery novel, *Stalking Anubis*. In November 2008, Seven Paws Press published his *Yesterday's Sky: Astrology and Reincarnation*. His most recent work is *The Book of the Moon*, published in Fall 2010. Steven's work has been translated into a dozen languages. He maintains active Astrological Apprenticeship programs in the United States, Switzerland, and Australia, and travels constantly around the world to teach his brand of evolutionary astrology. He was Chair of the Kepler College Advisory Counsel and served as a member of the Ethics Committee for the International Society for Astrological Research. www.forreastastronomy.com

DELL HOROSCOPE MAGAZINE describes Forrest as "not only a premier astrologer, but also a wise man."

Callie Khouri, who wrote the screenplay for the mega-hit film Thelma and Louise praises his "humor, insight, poetry, and astute, articulate observations of human nature."

Rob Breszny, in his popular Real Astrology column simply calls him "the most brilliant astrologer alive."

Robert Peng, author of *Qigong Master: My Life and Secret Teachings*, is the founder of *Elixir Light Qigong*. As a boy in China, Robert Peng apprenticed secretly under a legendary monk, Xiao Yao, who trained him in the martial and healing arts. As part of his training, Peng spent 100 days meditating and fasting in a dark, underground chamber deep in the mountains of the Chinese countryside. Xiao Yao visited him daily and instructed him in advanced practices to accelerate his spiritual development. Today, Robert uses his spiritual powers and healing abilities to help and teach people worldwide.

The combination of the geopathic stress removal technique and powerful spirit removal process results in immediate and long lasting peace that creates a healing and empowering environment. You will learn to continue to provide a proactive healing atmosphere by using simple yet powerful Light Life Tools developed by the late Slim Spurling and his former partner Bill Reid from the Denver Colorado area. This combination of multifaceted techniques creates a unique healing approach that promotes a healthy, happy and peaceful life.

Mediumship and the Akashic Records

with **Rev. Bill Collier**

DATES

August 11 - 12
Saturday: 9 am - 6 pm
Sunday: 9 am - 4 pm

TUITION

Early Registration:
\$225 until 8/3/12
Late Registration: \$255 after 8/3/12

Bill's focus in this two day training will be to empower students in the "how to" of accessing information. He will give you multiple ways to develop tools of understanding, so that you will learn flexibility in how to formulate and present

information when giving a message or reading. He will assist you in how to problem solve the problems that you and others create in the process of life. Bill also links this to understanding the differences from Psychic to Spirit contact with the use of Akashic records.

Many people who have taken Bill's classes describe him as one of the best teachers of mediumship they have ever had. He is serious about teaching his students how to get specific, identifiable information from the Spirit world. He does not accept generalities, but pushes his students to go beyond that until there is proof positive that you are indeed communicating with who you say you are. The message can contain evidence of survival and/or advice about problems dominating a current situation.

Rev. Bill Collier's background includes working as a mechanical engineer, and later on, as a management consultant, where he assisted many companies in their search for excellence. During his years in industry Bill also worked part-time as a Spiritualist medium, serving Spiritualist churches in various parts of the UK, & beyond.

26 years ago Bill was ordained as a Minister of Religion, & has served as Regional President for Scotland & N. Ireland. He has also done extensive work with TV and radio. For over 10 years Bill has focused 100% on his mediumship, travelling the world teaching and counseling those who seek spiritual answers, enabling the spiritual world to communicate their message. He currently lives in Switzerland, where he teaches students from around the world.

www.billcoller.com

Bill will be available for private readings during his stay at Fellowships on Fri., Aug. 10th, Mon, Aug. 13 & Tues. Aug. 14th. For information and appointments contact our office, 716-595-2159 or email fots@netsync.net.

Rev. Bill Collier will be our Speaker and Clairvoyant at our worship service on Sunday, August 12 at 6 pm. All are welcome.

A Weekend of Advanced Spiritual Explorations & A Unique Approach to Past Life Regressions

with **Dick Sutphen**

DATES

Saturday & Sunday,
August 18 -19
9 am - 5 pm

TUITION

Early Registration:
\$195 until 8/10/12
Late Registration:
\$225 after 8/10/12

Welcome to two days of fast-paced teachings and metaphysical explorations. Attend to enjoy all the psychic experiences, or if you are a professional hypnotist or a spiritual counselor, join us to learn the many techniques described below. If you use Past-Life Regression, you'll need these techniques to take your regression practice to the next level – its full potential. Certification available.

A Unique Approach to Past-Life

Regressions: We'll begin with a different kind of group past-life regressions to find people in the audience to demonstrate some of the other explorations described below. (Group sessions and individual demonstrations.)

Entity Attachment & Depossession: A very high percentage of our clients have one or more entities attached. An entity can cause a personality to change, such as encouraging their host to drink or do drugs or some other addictive behavior that the entity was into when alive. An entity can be causing you to feel depressed, unable to think clearly, or to quickly anger. Observe depossession to release earthbound spirits into the Light, and learn what to do when they won't leave.

Soul Retrieval: In times of crisis, or great fear, if you were unable to avoid the traumatic outcome, a soul fragment will sometimes leave your body to find safety. A child being molested is often the cause

of soul fragmentation, but it happens to adults in trauma as well. As examples: a major accident, or a painful divorce. Psychologists now use the retrieval techniques Dick will demonstrate.

Behavior Modification combined with

Hypnosis: A technique to literally brainwash someone “out of your mind.” If you feel called upon to help a friend or client who is suffering from a breakup or a tragic loss, this Deprogramming Technique is almost magic.

Pre-Birth Planning Session: Explore what you planned on the other side before you were born. You met with your Spirit Guide, Elders and Masters, and worked out the karma, dharma, and all the interactions you intended to experience in the manifest world.

Cord Cutting: An ancient metaphysical/occult technique to end an outside individual from draining your energy or manipulating you from afar.

Removing Blocks from the Energy Field: You can't change what you don't recognize, so we need to find beliefs and practices that are not working for you, and remove them once and for all.

Soul Groups: While your body sleeps at night, you astral project and return to your true home on the other side in spirit. Here, a major part of your learning takes place working with your Soul Group – those working on similar growth. An awareness of this group can be valuable for your client to know.

Raise Your Vibration: A simple formula to increase your vibrational rate.

Future Progressions: You can progress forward in time as easily as you can regress back into the past (earlier in this life or a past-life) to explore the cause of your issues, fears, physical problems or insecurity. By exploring the future in hypnosis, people are often able to release fears or attain an understanding of what is to come.

Unusual Techniques you need to be ready to use: Learn from your descendants. Learn from past-life enemies. Much more...

Everyone attending this two-day training will receive notes and other support materials. The seminar hours count toward professional certification from the International Hypnosis Federation.

Dick Sutphen's 5-Day Metaphysics 101 to 2012

with Dick Sutphen

DATES

Monday - Friday, August 20 - 24
9 am - 5 pm

TUITION

Early Registration: \$495 until 8/10/12
Late Registration: \$550 after 8/10/12

Join us to enjoy all the psychic/human-potential experiences, or if you are a professional hypnotist or spiritual counselor, join Dick to learn how to run the many techniques he will be talking about, presenting as group sessions or demonstrating individually. If you use Past-Life Regression, you'll need these techniques to take your regression practice to the next level—its full potential. Certification available if you wish, through the International Hypnosis Federation. Of course, any Sutphen course has to begin with an exploration of Reincarnation and Karma. Dick's metaphysics is a mixture of philosophy, psychic explorations and street-wise Zen. Vibrational Rates are covered, also the Point of Power is Now, Aliveness, Reinventing Yourself, Walkins & Wanderers, Universal Laws, and Psychic Abilities (you'll explore many)...and much, much more.

When we begin exploring the Zen-based Human-Potential Liberation Techniques, Dick generates life-changing awareness, right now! The techniques have been compared to a Zen Master whacking a devotee on the head with a stick to help him “get it” (without the whack in this case). Developed for his Bushido Seminar Training, Dick also adapted the concepts for use in private counseling. A short talk sets up a hypnosis process that focuses a client or seminar participant to come face-to-face with him or herself in a way that always generates a powerful impact. You'll experience major explorations, and every process will relate to what is happening in your life at this time. Examples of content:

- The Four Steps to End Suffering and Attain Peace of Mind. You will have to work at it, but this awareness sets you free.
- Aliveness & Challenge are critical to your well-being. Rate your own levels and learn how to best serve yourself.
- Buttons: When a robot's button is pushed, it reacts according to programming. In many areas of your life you are a robot, and you need to change your wiring.
- “If Only my relationship were better, and I had more clients, and more money... my life would be okay.” This is not necessarily so as you will find out in this process.
- Detached Mind is part of the liberation process. You cannot change what you do not recognize. These explorations and a detaching plan is guaranteed to change your life.
- The Six Blocks That Keep You From Acting to create your own reality can be overridden when recognized and processed.
- The Goal of this training is to improve your relationships, your sex life, your success level...and to rise above the effects of fear. Your fears are delusions, and your earthly purpose is to “cast away your delusions.”

Everyone attending this two-day training will receive notes, scripts, and other support materials. An “Advanced Spiritual-Hypnosis Counseling” certificate will be awarded at the end of the seminar. If you have already taken Dick's basic 5-Day Professional Training, this seminar's hours count toward an advanced professional certification from the International Hypnosis Federation.

The Deeper Meaning of Prophecy and Healing - A Sacred Garden Retreat

with Rev. Penny Donovan, D.D.
& Don Gilbert, M.S.W.

DATES

August 31- September 2

Friday: 7:30 - 9:30 pm

Saturday: 9 am - 6 pm

Sunday: 9 am - noon

TUITION

Early Registration:

\$265 until 8/24/12

Late Registration:

\$295 after 8/24/12

We will learn about and explore the deeper purposes of sharing spirit communication and doing spiritual healing, and how these effect the message and healing that is given and received. The obvious purpose for messages is to contact loved ones who have passed into the Summerland (spirit), and to learn of what it is like there, also to receive guidance in living our lives here on earth. But there are many kinds of messages given to us and they all have a purpose. More often than not, their purpose is not obvious to us at the moment and can appear puzzling. Learning how to read beyond the words of a message and apply the wisdom or advice on a higher level is very important. We will discuss how to develop this ability.

Also, the root cause of physical illness is often not obvious to us when we are presented with a healing opportunity. Healing more than the body is frequently called for when giving a healing. The manifestation of a bodily problem is the tip of the iceberg and we can discern beyond the manifestation to find the real cause of the discomfort and help the individual to release the thought/feeling pattern that is the core of disease. We will share some of the most recent teachings of Yeshua ben Joseph on healing, and participants will have an opportunity to practice his healing suggestions.

There are no accidents, everything has a cause and when we look only at the effect we are limiting our spiritual progress. Learning to discern beyond appearances is necessary if we are to truly grow in spiritual awareness, truth, and serve the function we are here to fulfill.

This weekend will include lecture, discussion, demonstration of healing and opportunities for participants to experiment with different approaches to message work and healing.

Quantum Physics says that our world is made up of tiny particles, which vibrate. Does it not stand to reason that if that is so, then the way to 'shift' a dis-ease is by bringing in a different vibration? Two active vibrations that exist in this world, is color and tone. By utilizing color, and developing her world famous 'colorworks' Patti was able to cure herself of both forms of Lupus. Doctors had given Patti 5-8 years to live as her Lupus was ravaging her body, but Patti began her colorworks, and within a year was free of Lupus. Vibrational Medicine

is the analytical process of 'trusting' your body to know which vibration it needs, in a very literal sense.

IN THIS CLASS YOU WILL LEARN:

The Science of Energies

Is the Subtle Energy field the Immune System? What is the difference between the Subtle and Auric Energy fields? How do the energy fields affect and/or create our health? Patti has a unique 'sight' which allows her to see the way that Quantum Physics expresses...There is no such thing as solid material..everything is tiny geometric shapes which vibrate. Utilizing your own unique gift, you will learn how to 'see' using your own gifts.

Words and Perceptions

Your perception of your world creates the words that you choose to define it. Each and every word has been recorded within your cellular body. Not just energetically, but literally within your cells. Cellular Biologist have expressed that its your environment that determine whether your cells are in 'growth' or 'protection' mode.. however, they now say that its not so much what you eat, or what you breath, or what you drink...the reality is, it is the words that you speak and the emotions that you attach to your words.

By taking this Certification Training, you will learn how to completely discern the difference between the Auric and Subtle energy fields. You will be confident in your ability to 'perceive' what your client's body is saying. You will have hands on capability to shift the vibrational field of disease and behavioral patterns that are stopping your client. Come join Patti for a weekend of Fun and healing transformation!

The Oracles of the Hebrew... Three of the Prophets Unveiled

TUITION

Early Registration:
\$95 until 10/26/2011
Late Registration:
\$125 after 10/26/2011

This special seminar centers on three major and important Hebrew prophets: Isaiah, Jeremiah, and Ezekiel. This presentation unveils in a simple, direct way their prophecies and the meaning for us today. Were these holy men's predictions just about destruction and cataclysmic events or is there something more?

Isaiah, a great statesman, beloved Jewish prophet, prophesied many mysteries that are misinterpreted in the Western world such as Lucifer, A Virgin Birth, a Mystery Child, an anointed and coming Leader, and much more.

Jeremiah, another statesman and prophet well versed in foreign policy, foresaw and warned Israel and all nations concerning things to come.

Ezekiel, the most mystical of the three prophets was responsible for the teaching on Jewish mysticism, such as the Merkavah and the Kabbalah.

Jesus of Nazareth told his people: "Don't suppose that I have come to nullify or weaken the Torah and the Prophets. I have not come to nullify but to fulfill."

Jesus knew that the best way to bring genuine peace and balanced relations

for all nations and peoples was through following the teachings and oracles of the prophets. His ministry was patterned after the prophets. We can best understand Jesus' universal message through the lens of the Hebrew Prophets, because he followed in the footsteps of their prophetic tradition.
